

THE NEW TECHNOLOGY OF CUTTING

FROM THE FORGE OF TRUE FRIENDS® Garden Tools, Inc.

TRUE FRIENDS® PRUNING SHEAR: MODEL #2000

Unique Design and Construction. True Friends® has accomplished what has been considered the impossible by our competitors. To **Forge** a lightweight solid steel pruning shear and manufacture it as light as an aluminum handled shear. We present our Model #2000 Pruning Shear. **Forged** steel blades and **ergonomically** designed handles. Sturdy construction by using the highest quality materials. Features **XYLAN®** coated blades, sap groove, wire cutter and a one hand safety lock, which can be used by right or left handed people. Infinite blade tension adjustment without using tools. Cuts material up to 1".
Overall Length 8.75"
Weight (each) 1.0 lbs.
Pack: SHELF 6 ea.
DISPLAY 12 ea.

TRUE FRIENDS® LOPPING SHEAR: MODEL #15-1

A tool **INNOVATION** in **PROFESSIONAL** quality. Bypass style lopping shear using our well known compound action - **Draw Cut** with a **Fulcrum**. This shear will give the cleanest cut without straining. Sturdy 2 1/2" hardwood handles deliver the power to the head. **Shock absorbers** reduce the strain to the wrists when cutting through 2" diameter branches. Replaceable **XYLAN®** coated blades make the cut virtually labor free, clean and easy to accomplish.
Overall Length 29"
Weight (each) 3.25 lbs.
Pack: 6 ea.
